

The Vanderbilt Cardiology Fellowship at a Glance

Year 1 (Clinical Year):

Year 2 (Clinical Year):

Year 3 (Research/Elective Year):

The third year is completely flexible. The only requirement is a 2-4 week Adult Congenital Heart Disease Rotation. Fellows have the flexibility to pursue:

- Clinical Electives with the ability to achieve COCATS level 2 in multiple domains
- Dedicated Research time (with some fellows dedicating the majority of the year to research)
- Masters of Science in Clinical Investigation funded by the division (classes during third year with a dedicated additional research year).
